# OUR DIFFERENCE WE BRING TO YOUR PLANT PROGRAM

## What's New

Built on flexible quantities, Rocky Mountain Liners continues to offer more ways to purchase what's needed. This year, we're expanding our Split 51 program to give growers more flexibility and access to additional varieties. Look for many popular plant groups now offered in full series in the Split 51 size.

We've also expanded Geranium options, adding 102 trays alongside Jumbo 50 to provide a more economical choice for growers. In addition, we've increased availability of many top-selling varieties, giving customers even more options across our most popular products.

## A Unique Variety

Exclusive to Rocky Mountain Liners, Petunia Veranda Double Sugar Razz is one of this year's must-have varieties. Add this unique beauty from Kientzler to your liner program while it's available.

## Operationally

Rocky Mountain Liners has acquired five additional acres in Denver, expanding greenhouse capacity to support customer needs and future growth. The new facility features advanced propagation and smart irrigation technologies to enhance the production of high-quality young plants.

## Mark Your Calendar

Join Rocky Mountain Liners for Colorado State University's Destination Days 2026 on August 5, to explore 2027 varieties from our breeder partners and get an early look at emerging industry trends. You'll also connect with broker partners and key suppliers to help plan for the upcoming season. For more information, visit Colorado State University's Horticulture and Landscape Architecture website. [agsci.colostate.edu/hortla/colorado-destination-days](https://agsci.colostate.edu/hortla/colorado-destination-days)

## We Love Hearing From You

Your success is our priority. Please continue sharing your feedback, so we can help your business thrive and grow. We look forward to another successful season together.

The Rocky Mountain Liners Team

### Quality Breeders:

We only partner with the most respected breeders and cutting farms from around the world to make your program innovative and well ahead of your competition.

### More Natural Sunshine and Supplemental Light:

We average 300+ days a year of Rocky Mountain sunshine that keeps your liners naturally compact. On our occasional cloudy days, our high-powered GE LEDs provide the perfect lighting supplement.

### Healthier Plants:

Our new, state-of-the-art facilities feature the best tools in the industry, resulting in stronger, healthier, and whiter root systems.

### Split 51, 102 & Jumbo 50 Liners:

We offer the flexibility to order smaller quantities so that you can offer more varieties and add more diversity to your program.

# BREEDERS

# TRAY SIZES

## Jumbo 50

- All combo liners
- Good for premium varieties that need more soil volume and grow space for a better-quality liner
- Faster quart or gallon finish with larger root system

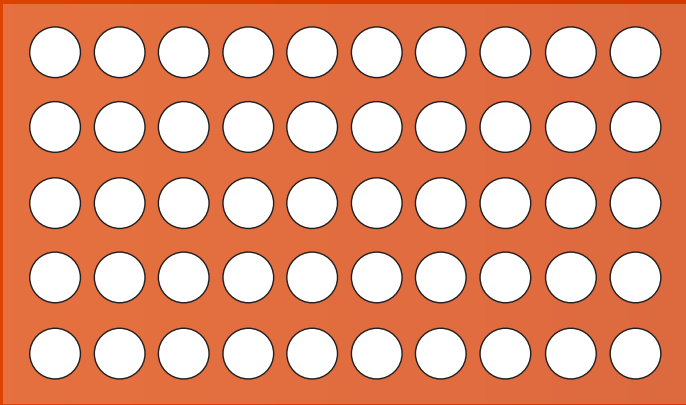

## Split 51

- Over 50% of our catalog offered in Split 51
- Provides the most convenient size liner to allow flexibility and diversity to your program
- Excellent for creating combination baskets and quart finish

## 102

- New liner size
- All new geranium program that provides a more economical option in this popular category.

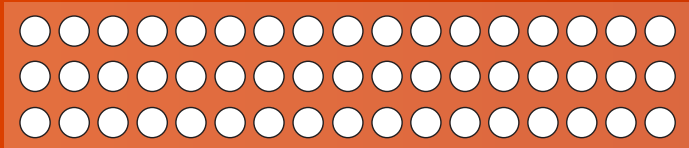

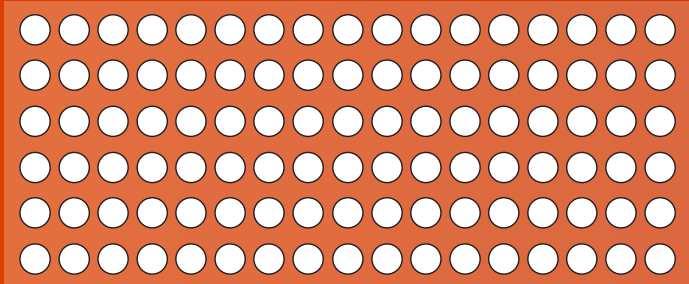

Jumbo 50  
20x10x1.625

Split 51  
20x5x1.5"

102  
20x10x1.5"

# DETAILS

Winter Pack will be used on all of our FedEx shipments when the temperature is 32 degrees or lower.

Here's Purple Pete: Our climate-controlled truck keeps your plant delivery at optimal temperature. This ensures they arrive in the condition they were grown.

We look forward to filling your young plant needs.  
Here are the details you need to place your order with us:

## **ORDERING**

- Select your broker of choice (listed on page 9). They will provide a quote that includes pricing, along with all the details needed to build your order.
- Orders that are specifically grown for you generally have an 8-week lead time. Some specialty items are limited in supply each season, so we recommend you order early.
- During liner shipping season, we publish a weekly availability report that allows you to fill those last-minute needs; these orders need to be placed by noon on Thursday prior to your preferred ship week.
- We welcome order requests from outside our catalog offering. The minimum required is 300 per variety per ship week, reviewed on a case-by-case basis.

## **TAGS**

- Tags can be added to your orders at a 1:1 ratio. No split orders or split ratios are offered, and we can't promise to fulfill late tag orders submitted after the original order has been confirmed.
- Tags now drop ship. Suppliers will send them directly to your location within a week of placed order.

## **BOXING**

- We use a one-size box that holds 8 Split 51 trays, 4 102 trays or 4 Jumbo 50 trays, or we can combine these tray sizes to fill the box efficiently and keep your per-plant freight costs lower.
- Minimum order is one box. If your order contains a partial box, we will contact you to help you fill the box with something amazing we have available at the time of your shipment.
- We provide special winter packaging when the temperatures are threatening on your ship week. We will let you know if it's too cold to ship so we can hold your order to avoid freeze damage.

## **SHIPPING & DELIVERY**

- Our shipping options depend on your broker of choice. Please inquire with us for more details. Boxes generally ship by FedEx Air or Ground, depending on your location, and is billed to your broker accounts. Please let us know of any specifics in your area that work best to get plants there safely, and we will do our best to accommodate your request.
- We offer customer pickups on Tuesdays of your ship week. We can also provide our grower truck to deliver trays in the Colorado Front Range area. We can deliver greater distances with special arrangements made in advance. Pricing is based on mileage from our farm.
- Claims must be made within 3 days of receiving your order and must include pictures of each tray with descriptions of any shipping or quality concerns.
